Hi s.33(1)

Thanks very much for the update, and for following this up.

Apart from the issues with phone numbers / email addresses, this has been going on for more than a year now.

Could I please have a chat by phone / Teams some time to understand the issue and how it is being resolved?

(Can wait until relevant staff are back from leave if needed).

Tom

Hi Simon

I'm currently on leave with limited access to my emails.

I've included Anita in this email so she is aware that you have tried to contact her.

Regards

Just to add to the below and referencing the letter from s.33(1) [redacted] A/Manager

Property and Assets Strategy Darebin Council

- The email address provided in the letter - [@...](#) bounces back. Doesn't work
- The phone number provided **s.33(1)** doesn't go to the council its the number for, Your community Health
- I rang **s.33(1)** directly, she wasn't available, your reception wouldn't provide an alternative email, apparently they left her a message. No return so far.

Seriously

s.33(1), per previous emails and telephone messages (Unreturned) please provide:

- A copy of the latest survey conducted by Stephen Muldoon at FMG Engineering. I believe this was sent to council some time ago.
- An update on the current plans. It was the commitment of council to consult with myself an other parties. To date nothing.
- A timeline for any activities.

I am cc'ing **s.33(1)**. (assume she will get this via the Services email as per her letter) Her letter describes in part the process of sale council property.

Are you by chance speaking with each other? I'm sure the council would not sell property without full disclosure of the current issues.

Per earlier advice I do wish to purchase the land post full consultation concerning the land degradation and works to be done.
