Scope/Details of Request 'A copy of a submission made by DVA to the OAIC regarding delays to responding to the more than 1,657 enquiries about the MATES privacy breaches, seeking access to copies of disclosures made by DVA to UniSA, stated the delays were because of internal communications over how to extract and "best present" that information had to take place first.

It stated that the Department had to seek the approval of both the Secretary and the Minister first as to how to present this information, contributing to these delays.

As these discussions and approvals have now finalised I seek copy of these records of communications and approvals as to how the data of these disclosures of personal information from DVA to UniSA would be extracted and "best present"ed.

Given the reference to internal communications by the Department about this matter it is likely these records are held in the Department's MS Teams, email, TRIM, PDMS, and group drives in electronic form.

As the Minister and Secretary were mentioned as having to approve how this would happen and in what form it is likely DVA's Ministerial and Parliamentary Support (MaPS) section, the Information Law section, and Research area are where these records can be found within the Department.'
