Hi Marc,

I note that the decision is due **today**. I have removed the relevant paragraphs regarding the legal professional privilege exemption from the letter. Grateful if you could please sign as soon as practicable and provide it **before 4.45pm** so I can notify the Deputy Secretary and send to the applicant? Unfortunately I am unable to stay past COB today to send it.

Kind regards,
s22

Hello Marc,

I am not familiar with the relevant documents but in s22 absence today I have had a look at the paragraphs you've highlighted. If you consider that there is no legal professional privilege that attaches to the relevant documents in this FOI matter then this part of the decision letter can be removed.

Happy to discuss.

Kind regards,
s22

Hi

Before I sign, can I just check something. I have highlighted some paragraphs around Material subject to legal professional privilege. I am not sure that applies to this request. I think the next para on Material obtained in confidence is more appropriated.

The highlighted paragraph was added to a later request from a related FOI where the requester was seeking the legal advice from auDA about the confidentiality of the material – so it is part of a later refusal, but I don't think its relevant to the refusal for the initial request – and this is only seeking the initial information – or am I missing something?
